SUMMARY

Front-end developer who enjoys coding and web development; I am eager to write clean, elegant and efficient code. As I also have experience in social media marketing, I am capable of exceeding user experience and sales goals. I have strong skills of problem solving, making the right decisions, and working very hard under high pressure.

SKILLS

Frontend:	JavaScript, HTML/CSS, React/Redux, Next.js, WordPress, Tailwind
Backend:	Python, PHP, Node, MySQL, Firebase, MongoDB
Tools:	Git

EXPERIENCE

UX/UI + Web Developer Intern, Onyx Creative Media — Mar 2024 - Present
Technologies: HTML/CSS, JavaScript — Calgary, AB

- Conceptualize and design a visually appealing and user-friendly website layout.
- Utilize UX/UI principles to enhance user experience and optimize website functionality.
- Implement UX/UI principles to enhance user experience and optimize website functionality.

Front-end developer Intern, GAO RFID Inc. — Nov 2023 - Feb 2024
Technologies: JavaScript, PHP, WordPress — Toronto, ON

- Developed e-commerce pages and website templates by leveraging WooCommerce and Elementor plugins with a collaborative team of 20 members.
- Implemented and integrated a mega menu using Max Mega Menu plugin, integrating JavaScript and PHP code to add tabs within the menu.
- Built an Ajax search using FiboSearch plugin to make the user experience more smooth and simple.

Front-end developer Intern, Tellext Inc. — Feb 2023 - Jul 2023
Technologies: React, TypeScript, Next.js, WordPress — Vancouver, BC

- Implemented the progression of contemporary website development through the adept utilization of WordPress, Elementor Pro, and JavaScript to ensure a sophisticated and seamless user experience.
- Accomplished 20% enhancement in website loading speed through the judicious selection and integration of suitable plugins, thereby optimizing overall performance.
- Innovatively designed and implemented a new manipulation function, while concurrently overseeing system design in TypeScript and Next.js for heightened efficiency and functionality.

Front-end developer Intern, One Community Global — Mar 2023 - Apr 2023
Technologies: HTML, CSS, JavaScript — San Gabriel, CA

- Created new functions to enhance the user experience using JavaScript and redesigned a simple and functional application form.
- Managed website versions and task management functions to attract potential clients, updated user information.
